Technical Information

Time Classes:

- Monthly averages are split-week arithmetic averages, of MS daily communications.

EU sectorial averages are:

- Weighted averages of all the expressed figures, for all the countries, for each product.
- These sectorial EU averages will provide different figures of a simple arithmetic average of expressed data at country level.
- There are two average prices: EU=average of available prices for the current composition of 27 Member States (i.e. excluding the UK), EU+UK=average of available prices with the composition of the EU until 31/01/2020.
