

For us, performance means unwavering commitment

2022 was an exceptional year in terms of creating value for the economy, the environment and for society at large. The commitment of our **155,000** staff members spread across **160** countries made it possible for us to provide our valued customers with innovative shipping and logistics solutions. We are reinvesting close to **90%** of our profits to accelerate our development, support our customers and our staff members and contribute to energy transition. That's how we define true performance.

23

€ billion invested in the development of our shipping, air and logistics solutions
