

PRIVA MASTERCLASS

A unique opportunity to learn from Priva Consultant and Technical Trainer – Paul Jense

Growers are invited to attend a Priva Masterclass with visiting Priva trainer – Paul Jense. For the past fourteen years, Paul has worked at Priva as firstly a desk support engineer, before moving to the role of Technical Trainer and Horticultural Consultant. As part of his very busy trip to Australia, Paul has kindly arranged to make himself available for this day.

This is a great opportunity to learn from one of Priva's top trainers.

The day will also include an overview of the newly introduced Priva / Genesis End User Accreditation scheme now available in Australia and New Zealand

The class will be held at Chisholm Institute of TAFE's National Precision Growing Centre in the training area, and the event will include morning tea and lunch.

Cost of your investment - \$430 per person

For registration and further details, please contact:-
